Certifications

1

Our hotel has received the “Health First” certification.

We employ “Eco Project” cold foggers for the disinfection of our premises.

We employ Diversey disinfectants.

Preserving the safety of our guests

2

All members of our team have received testing for COVID-19.

Daily temperature measurements are performed.

Each of our team members abides by the necessary hygiene, safety and distancing measures.

Our team members use Personal Protective Equipment.

Every member of our team is fully trained in new health and safety measures, as well as our emergency response plan.

Preserving the safety of our guests

2

We have arranged a 24/7 partnership with a medical doctor.

Hand sanitiser stations can be found throughout the common areas of our premises.

All our common areas are disinfected completely at a high frequency.

We recommend that our stairs be used instead of our elevators.

All surfaces are disinfected throughout the day.

Preserving the safety of our guests

2

Areas that guests come into contact with frequently, including our elevator buttons, the counter at our reception desk and various metallic surfaces, are kept in pristine condition throughout the day.

Our travel designer services ensure bespoke services with total safety and the requested level of exclusivity.

A book of records is kept and the entry of visitors who are not residing at the hotel is limited for the safety of our guests.

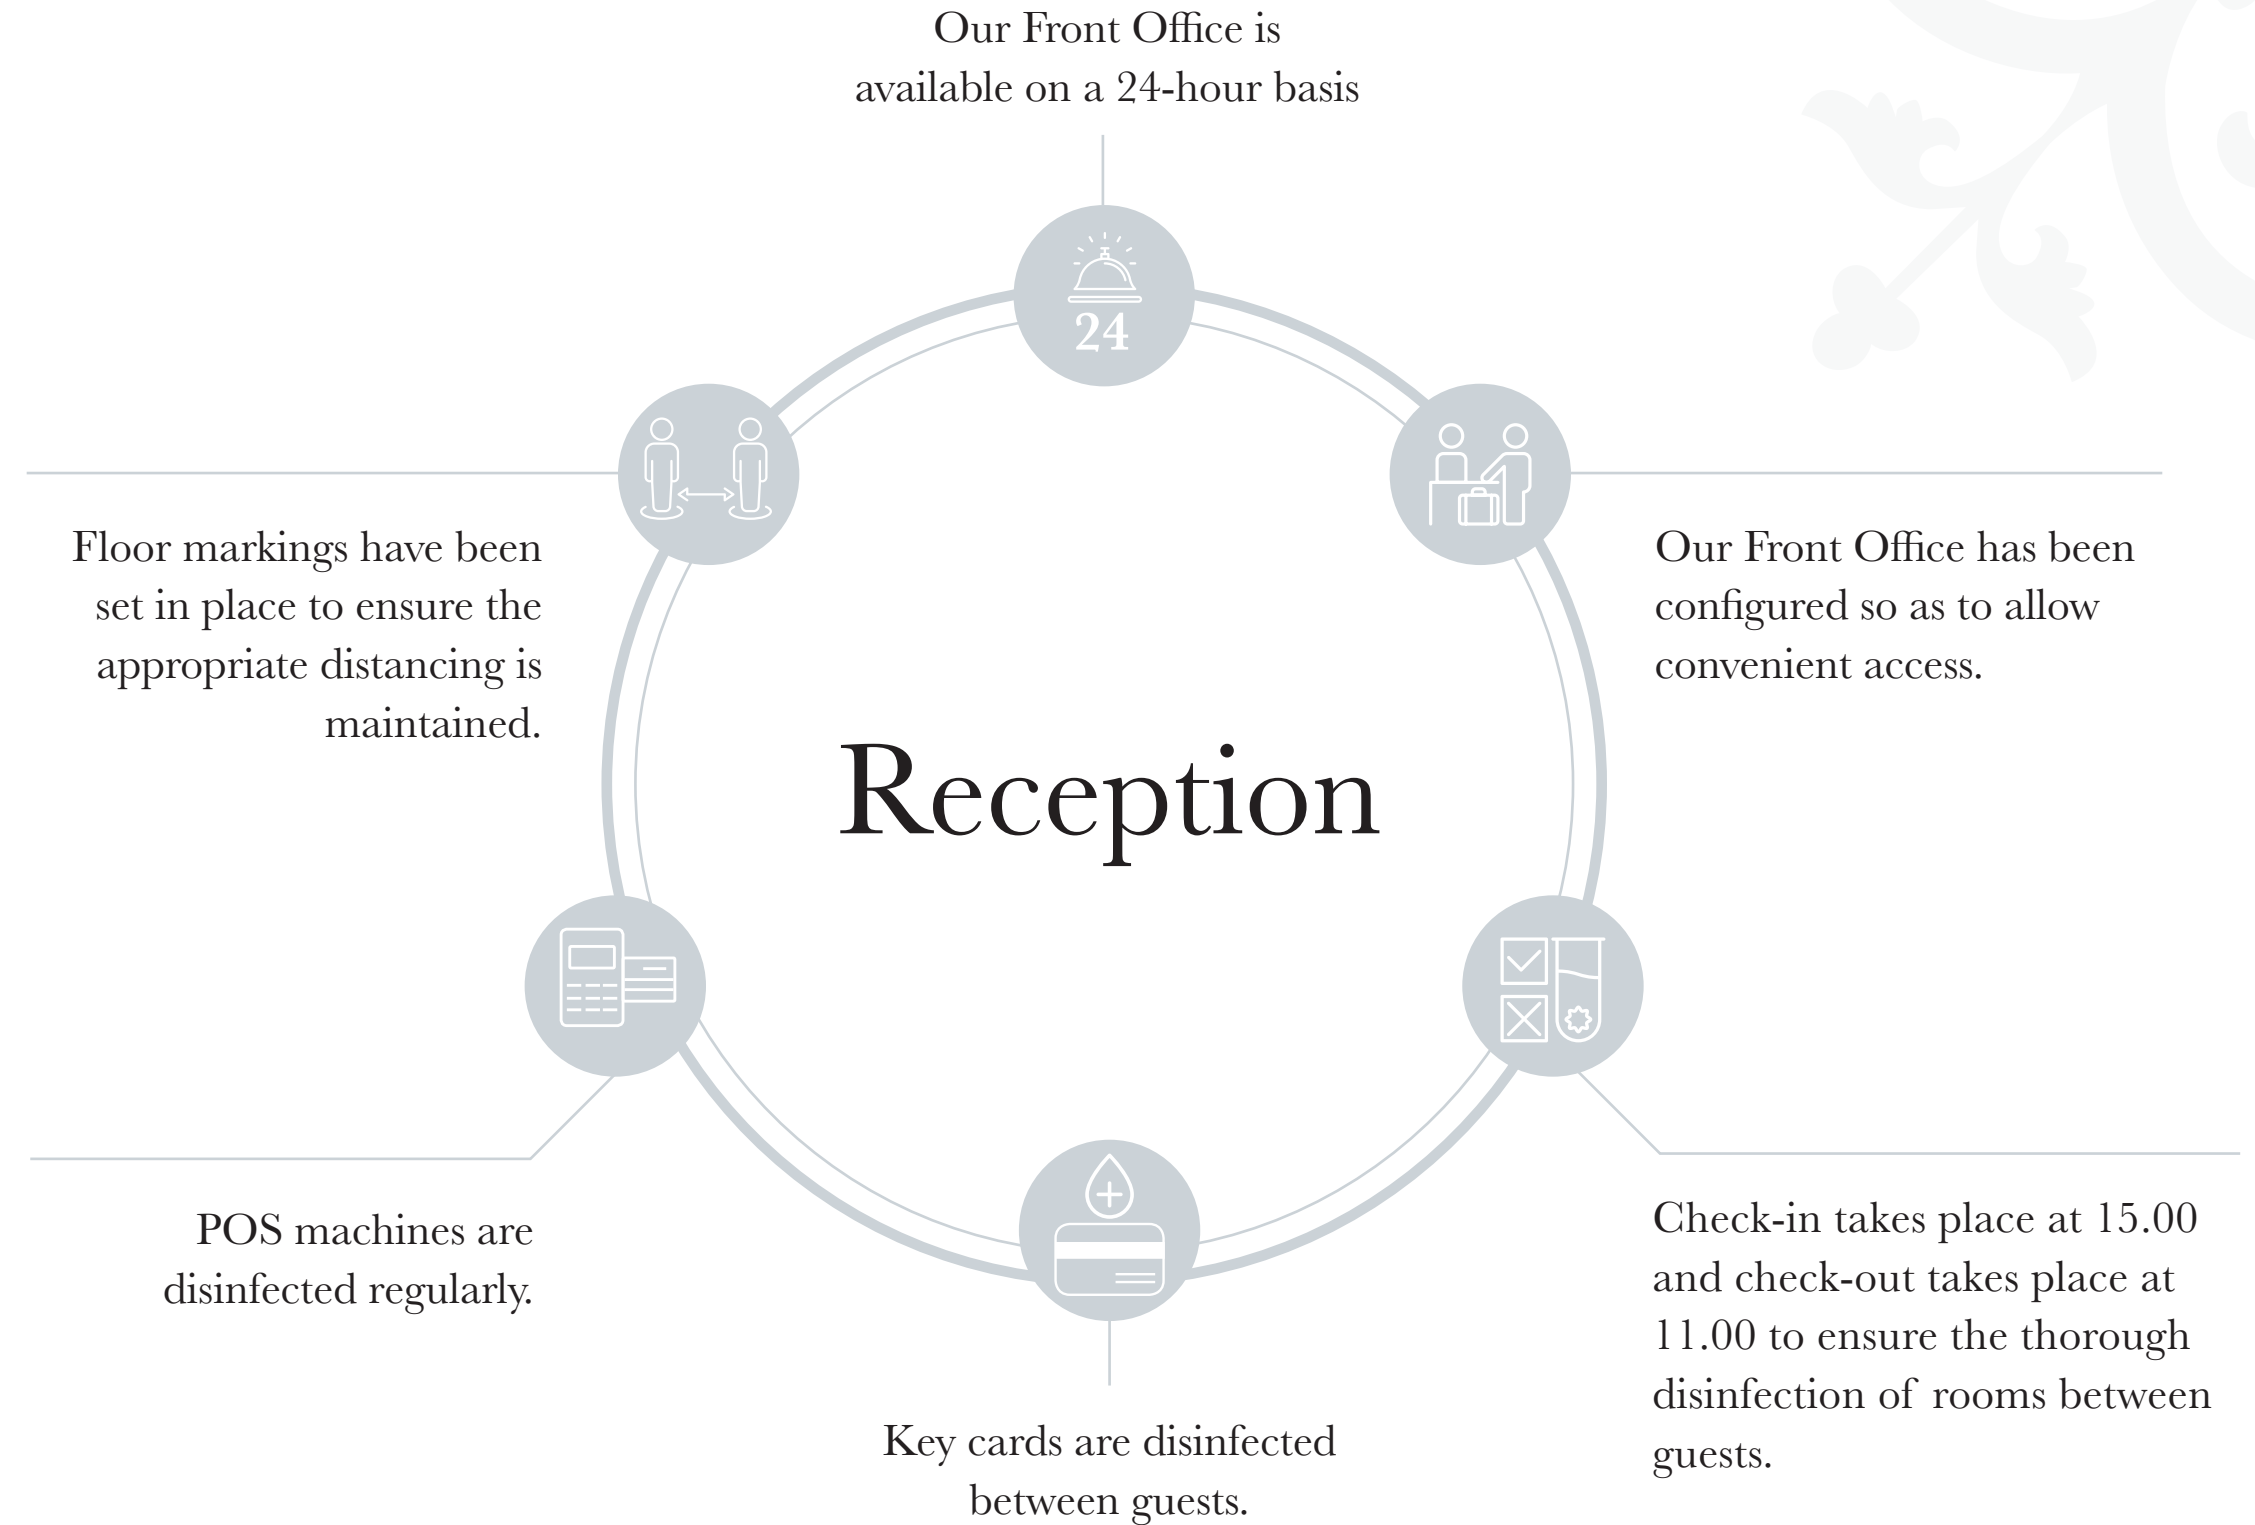

All our common areas are well-ventilated, with constant circulation of fresh air indoors.

Gastronomy

5

All our F&B outlets observe the necessary distances between tables.

Our team members adhere to strict hygiene regulations and utilise Personal Protective Equipment when serving our guests.

We strongly suggest that reservations are made prior to a visit to our F&B outlets.

For safety purposes, our menus can be perused in digital form, accessible through the use of QR codes. Single-use copies will be provided to our guests if this is required.

Breakfast is served between 07.30 and 10.30 each morning, both at the buffet with the assistance of our waiters, and through an à la carte option.

Main Menu

All kitchen procedures have been certified in accordance with HACCP protocols.

Facilities | Pools

6

Appropriate distancing guidelines are observed and only one guest per 5 sqm will be allowed within our pool. Quality controls take place at regular intervals.

Regular disinfections of sunbeds, tables and equipment at the pool area are performed.

It is requested that our visitors use our pool showers before entering the pool.

Our team members are responsible for ensuring that the required social distancing is maintained and that only the appropriate number of guests is allowed in the pool at one time.

Our guests are offered fresh, clean towels, which have been disinfected and safely sealed in protective packaging.

The water of our pool undergoes regular testing to ensure its pristine conditions in accordance with national standards.
